Dear Parent/Guardian

Year 7 Maths and Science Groups

There will be some changes to your child's timetable on Monday. Now that students have finished their CAT 4 tests we have been able to regroup them in Maths and Science accordingly. This may cause changes to other parts of their timetable, including PSHE. A new timetable will be issued to the Year 7 students on Monday.

As you may be aware, currently students are being taught in their tutor groups for these subjects. Students will now be taught in classes that have been grouped according to students' attainment and skills. They will continue to be taught by specialist teachers across both subjects.

Should you have any further queries about this change, please do not hesitate to contact Mrs T Goodman for general enquires, or myself Kelly-Anne Taylor (Director of Maths) or Becky Leverington (Director of Science).

Can I also use this opportunity to let you know that there will be a Tripod Evening on Thursday 21 October for all Yr 7 parents and carers. This will be an opportunity to meet with your child's tutor and discuss how the transition to high school has gone

Kind regards

Kelly Taylor

Dr K Taylor

Director of Maths
