21st March 2022

Dear Families,

Community Schools

We are excited to be working with 'The Community Schools' to give students in Year 11 the opportunity to take part in their 'Easter Grade Booster Program'. This program will be running in conjunction with the 'Easter Success Sessions' that will be taking place in school. More details about these sessions will be sent home shortly.

The Community school are offering students the chance to have 1-1 tutoring in Maths, English, Biology, Chemistry and Physics. Students who sign up will receive one session a day, for four consecutive days.

The tutor will work with each student individually to fill in any gaps in knowledge, build confidence and to provide revision and exam technique guidance. At the end of each session the tutor will set structured exam practice to complete before the next session.

There is some flexibility about when the sessions will take place.

A block of four sessions, in one subject, will cost £100. If you would like your son/daughter to take part in one of the booster sessions but need some financial assistance, please contact t.west@stowhigh.com prior to booking, and we will look into what support we can offer. We really do not want anyone to miss out because of the cost involved.

Once you have registered your interest in a session your details will be passed onto the Community School. They will then contact you with further information on registration, how to access the live sessions and payment.

To register your interest in the 'Grade Booster Program' please email t.west@stowhigh.com stating the subject that you wish your son/daughter to be supported in. Please register your interest by the end of the day on Monday 28th March.

Regards,

Mr T West
