30 March 2022

Dear Families

Young Professionals have another huge Work Experience day coming up over Easter, this time in one of the fastest growing and most lucrative industries in the world - technology!

On **Wednesday 13th April** from **9:00am - 4:00pm** they are hosting perhaps the biggest virtual technology work experience event for school and college students ever as they are being joined by some of the world's most successful companies in the space in: PwC, World Wide Technology, Capgemini, IBM, Virgin Media & QA.

You'll get to hear and learn from some of the world's top business and technology professionals as they take us through a number of practical workshops, activities and presentations.

If you're interested in a career in the world of technology make sure to take advantage of this opportunity!

If you're not familiar with some of the companies involved I would advise you to do some research on them to give you a better understanding of who they are and what they do as well as to start thinking about some of the questions you might want to ask.

Technology is without a doubt the fastest growing industry in the world and as it continues to grow and evolve so will the opportunities for those with a career in the space.

Just like their other virtual work experience events taking place over Easter, certificates of completion will be awarded which you'll be able to add to your CV / personal statement.

To sign up click on the following link: <https://www.surveymonkey.com/r/Technology-Work-Experience>

Kind Regards
