Dear Families

Design & Technology Materials

In Year 10 some students have chosen to study some form of Design & Technology. In order to cover the minimum cost of the materials they use for their projects; we ask for a voluntary contribution of £10 which covers the academic year. If you have paid the contribution your child will be able to bring their projects home.

If your child is in Year 10 and studies a GCSE Design Technology subject (Resistant Materials, Graphic Products, Engineering, Food Preparation and Nutrition, Hospitality and Catering) please log on to ParentPay to make payment.

If you require login details or require financial assistance, please contact the finance office finance@stowhigh.com with the name and year group of your child.

Yours sincerely

Mr J Hawkins
Director of Technology
